

Power Your Gaming World

The World Hottest New Games Bundle

Doom 3 in GIGABYTE

Taipei, Taiwan -GIGABYTE Technology Co., Ltd. proudly announces latest NVIDIA-based graphics accelerators and game bundle. The all new DOOM 3 Special Edition Bundle – The DOOM 3 Retail CD bundled along with NVIDIA's new GeForce 6 Series of graphics accelerators, the GeForce 6800GT and the GeForce 6600GT. This is truly an amazing one time offer.

For this DOOM 3 Special Edition Bundle, GIGABYTE delivers both an AGP solution with the AGP8X VGA Card GeForce 6800GT, and a PCI-Express solution with the GeForce 6600GT. In addition to DOOM 3, today's hottest new game, the free software bundle also includes PowerDVD 5.0, the latest evolution of the world acclaimed DVD software player that offers maximum video and audio playback entertainment on the PC.

About DOOM 3

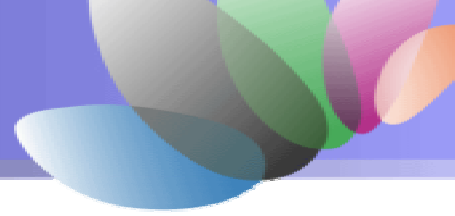

DOOM 3 continues id Software's legacy of setting a new benchmark in PC gaming with every game it develops, and the game has been critically acclaimed worldwide and we expect momentum to continue as it releases in new territories. Built on id's revolutionary new 3D technology, DOOM 3 is a terrifying battle with the forces of Hell. In DOOM 3, your recent assignment to the Union

Aerospace Corporation's Mars research facility seemed simple enough, until their discoveries and experiments unlocked the gates to Hell itself. Now, in an epic clash against pure evil you must fight to understand who is with you, who is against you, and what must be done to stop this nightmare from reaching earth. For more information, visit the official website at WWW.DOOM3.COM

So make the GIGABYTE NVIDIA® GeForce™ 6 series graphics card part of your PC and experience the cinematic-quality effects, studio-quality color, and industry-leading performance that you have come to expect. Pick up your DOOM 3 Special Edition Bundle by GIGABYTE today.

About GIGABYTE

GIGABYTE Technology Co., Ltd. was established in 1986 to uphold the concepts of innovation, quality and reliability. GIGABYTE has built a strong foundation with its outstanding achievements in the motherboard industry. It is the only motherboard manufacturer to have been honored with the coveted Taiwan Symbol of Excellence for SEVEN consecutive years and to win the Gold National Award of Excellence, the highest award for product development in Taiwan. For the third year in a row, GIGABYTE has been named the No.1 motherboard manufacture by PC Magazine.

GIGABYTE has achieved superiority in all of its product lines including motherboards, graphics cards, PC peripherals, notebooks, servers and networking and communications products. From design, research and development, GIGABYTE's products meet all commercial and consumer requirements for quality, stability and reliability. To provide complete after-sales service, GIGABYTE has set up an extensive support network across the globe and offers extended warranties on all of its products. The diverse product lines of GIGABYTE not only enhance the working performance of individuals and enterprises but are also the best choice for connecting with the world and the future. GIGABYTE will continue to follow its vision of becoming the most valuable provider of IT products in the world.
